## High Performance Switch Systems (HPSS)

NETWORK RAIL INFRASTRUCTURE LIMITED

UK2: Preliminary market engagement notice - Procurement Act 2023 - [view information about notice types](#)

Notice identifier: 2025/S 000-053397

Procurement identifier (OCID): ocids-h6vhtk-0592d3

Published 3 September 2025, 9:56am

### Scope

### Description

To help inform any future procurement event, Network Rail is undertaking Soft Market Testing via this PIN to gather information to understand the capability of the supply chain to manufacture and provide materials for High Performance Switch System which contains over 1000 components, this is broken down into lots as per the attached document. You are able to advise if you can provide for one lot, all lots or multiple lots. The Drawings are attached and this is stage 1 of a multi stage exercise, the next stage will be a site visit. We are looking to expand our supply chain. Your organisation's assistance will help Network Rail determine how best to undertake any procurement event should one materialise and ensure contracts/frameworks formulated reflect what the supply market can deliver.

There is no guarantee that any procurement will take place because of this PIN questionnaire, but your organisation's interest will be noted in the event that one is undertaken.

There is a provisional Lot Structure whose CPV codes are as per the pin, all the details can be found in the additional documentation.

### **Total value (estimated)**

- £500,000 excluding VAT
- £600,000 including VAT

Above the relevant threshold

### **Contract dates (estimated)**

- 30 September 2026 to 30 September 2031
- 5 years, 1 day

### **Main procurement category**

Goods

### **CPV classifications**

- 34942000 - Signalling equipment
- 14622000 - Steel
- 31214000 - Switchgear

- 34941800 - Railway points
- 34946110 - Rails
- 34946120 - Railway materials
- 44450000 - Mild steel

## **Contract locations**

- UK - United Kingdom
- 

## **Engagement**

### **Engagement deadline**

3 October 2025
