Adults - Strategic Commissioning

Description

City of Doncaster Council is seeking to recommission and develop its Mental Health Floating Support Service for individuals aged 18 and above experiencing a range of mental health needs. Whilst the majority of individuals will have lower needs, the service may also contribute to support packages with other agencies for those with severe and enduring mental health needs, including those with dual diagnosis. Some individuals may also have more complex needs as detailed above therefore requiring a more intensive level of support. Users of this service may be at risk of homelessness, loss of independent living skills and social exclusion and social isolation. Some may struggle with relationships and problems with their neighbours. Individuals may live alone or be part of a larger household. There may be more than one individual within a household living with mental health and requiring support where a whole family approach may be more appropriate. Individuals may be in receipt of services from other agencies and/or professionals; however some may not. The Provider will particularly need to develop a positive and

beneficial working partnership with the mental health teams, social work teams, housing providers and other key stakeholders in order to evolve the service in a way that complements the work of and optimises the joint resources to create a stronger support pathway for people experiencing mental ill health. **Please note, the contract published as part of this tender is being reviewed in respect of the Procurement Act 2023. An updated version may be published by the Council within the tender period for all bidder's consideration and the timescales of the tender period may be extended if and as appropriate.**
