## **Scope**

## **Reference**

39050333475

## **Description**

AI is key to the departments strategy - understanding how we use it sustainably when developing services is key to the implementation of our strategy

This course is designed to help develop capability

- Week 1: Environmental Impact of AI, Measuring AI's carbon footprint
- Week 2: Sufficiency best practices and applications
- Week 3: AI optimization strategies (training and inference), ROI of sustainable AI
- Week 4: capstone project presentations in the DWP Digital supplier management sphere

This will provide some capability to key experts in the department and to validate appropriateness for a wider audience. This is a test and learn exercise to build capability and look at how the training can be used for a wider audience in an appropriate manner.
