Reference

T280022709

Description

DVSA is looking to procure the services of a contractor to deliver Digital and Calibration Tachograph training.

DVSA regulate the tachograph calibration centres and require Traffic Examiner staff, who conduct the site approvals, to understand the process of calibrating tachographs, as part of the approval process of the Approved Tachograph Centres (ATC).

The staff involved in the approval and monitoring of the ATC are geographically spread across the UK and undertake regular inspections of the sites and operations. To do this effectively requires them to be able to understand and experience the actual process of installing a tachograph and calibrating it to a vehicle to meet regulation.

The training provided should ensure Traffic Examiner staff are able to conduct consistent and informed site approvals of Approved Tachograph Centres (ATC).

The expectation is to deliver training for up to approximately 15 staff each year.

Total value (estimated)

- £30,000 excluding VAT
- £36,000 including VAT

Below the relevant threshold

Contract dates (estimated)

- 12 January 2026 to 11 January 2030
