II.2.3) Place of performance

NUTS codes

- UK - United Kingdom

II.2.4) Description of the procurement

The purpose of Lot 1 was to appoint a single Supplier who was responsible for the

provision of Multifunctional Print Devices (MFDs) and Basic Print Management Software via Direct Award between the successful Supplier and Buyer.

Lot 1 provides a simple, efficient and compliant route for Buyers to procure a range of MFDs and Basic Print Management Software through a Supplier hosted Web-based Online

Solution which supported the reduction of print output volume and enabled significant savings on print management costs for Buyers, through a secure print facility.

II.2.5) Award criteria

Quality criterion - Name: Quality / Weighting: 0

Price - Weighting: 100

II.2.11) Information about options

Options: No

II.2.13) Information about European Union Funds

The procurement is related to a project and/or programme financed by European Union funds: No

II.2.14) Additional information

1 place was awarded on this lot

II.2) Description

II.2.1) Title

Multifunctional Print Devices (MFDs), Print Management and/or Digital Workflow Software and Associated Services

Lot No

2

II.2.2) Additional CPV code(s)

- 30100000 - Office machinery, equipment and supplies except computers, printers and furniture

- 3) Approved Customer list
- 4) Transparency Agenda

On 02/04/2014, Government introduced its Government Security Classifications (GSC) scheme which replaced Government Protective Marking Scheme (GPMS). A key aspect is the reduction in the number of security classifications used. All bidders were required to make themselves aware of the changes as it may impact this requirement.

This link provides information on the GSC at:

<https://www.gov.uk/government/publications/government-security-classifications>

Cyber Essentials is a mandatory requirement for Central Government contracts which involve handling personal information or provide certain ICT products/services. Government is taking steps to reduce the levels of cyber security risk in its supply chain through the Cyber Essentials scheme. The scheme defines a set of controls which, when implemented, will provide organisations with basic protection from the most prevalent forms of threat coming from the internet. To participate in this procurement, bidders were required to demonstrate they comply with the technical requirements prescribed by Cyber Essentials, for services under and in connection with this procurement.
