Scope

Description

Cadent is seeking to implement an online system capable of maintaining accurate and up-to-date structural asset drawings, thereby enabling efficient and streamlined asset management across its networks. This initiative is intended to enhance system efficiency and support future operational improvements.

Key benefits of the proposed solution include:

- **System Consolidation:** Eliminates reliance on multiple platforms, improving data retrieval speed and accuracy.
- **Real-Time Functionality:** Enables live updates, enhancing responsiveness for field teams and remote users.
- **Data Governance:** Ensures data integrity and restricts unauthorised modifications.
- **Enhanced Collaboration:** Facilitates cross-functional teamwork and mitigates duplication of effort.
- **Centralised Repository:** Replaces manual processes with a unified digital archive.

Cadent requires an external solution that fully aligns with both its operational needs and compliance obligations.
