The ICBs in the South East invites expressions of interest (EOI) from suitably qualified and experienced providers to provide Sight Testing and Dispensing of Spectacles to Children and Young People in Special Educational Settings across the South East. The ICB areas involved are:

2. Frimley

Children and young people with autism and/or learning disabilities face significant barriers to accessing routine eye care. Evidence from the 2021 NHS England Proof of Concept

(POC) programme showed that delivering sight tests and dispensing services directly within Special Educational Settings (SES) is both effective and impactful. This service aims to ensure that every eligible child in SES across the South East is offered an annual sight test, unless clinically inappropriate. The goal is to reduce health inequalities, improve educational outcomes, and support better quality of life through timely identification and management of vision needs. For further information please see the service specification and the engagement report published on the NHS England website.
