### **Procedure type**

Direct award

### **Direct award justification**

Single supplier - technical reasons

The need for extremely low ground pressure makes it the only choice for working sensitively on Broad habitats. No other manufacturer in Europe supplies this type of vehicle or cutting specification. The Softrak has been specially designed to spread the weight of the equipment over a larger area using wide low impact rubber tracks and has been a proven design in the Broad environment. All our existing Softrak attachments & accessories will be transferable to this model.
