Description

In April 2015 the MOD signed a thirteen year contract with Leidos Europe Ltd to provide the procurement and inventory management of commodity items (as well as the storage and distribution services) historically provided in-house by the Logistic Commodities and Services Operating Centre. Leidos, working with the MOD, will transform the way these services are delivered to ensure requirements continue to be met whilst providing best value for money for the department. The organisation delivering these services is known as Team Leidos.

Team Leidos would like to make markets aware that we are intending to investigate innovative approaches to fill our Defence Clothing requirements.

It is the aim of this Preliminary Market Engagement Notice (PMEN) to encourage companies, suppliers, or manufacturers to make us aware and provide as much information as they are comfortable with, to help decide the future strategy for the range.

Team Leidos wishes to generate interest, information and views with other companies to understand the current market innovation and gain useful intelligence that can help our requirement.

We anticipate this requirement will be split into 2 lots. Details of the potential lots are below, subject to change following market engagement activities:

Lot 1: Combat Garments MTP & Thermals

Lot 2: Combat Garments RN FR Fabrics
