Scope

Reference

S1126 (2026) Temporary Traffic Management

Description

NIE Networks now wishes to award a Framework Agreement for Temporary Traffic Management Services;

The Temporary Traffic Management service will facilitate NIE Networks' internal work requirements associated with:

- Provision of New Customer Connections
- Asset Installation/Replacement/Upgrade Works
- Fault & Emergency Response

These services will include:

- pre-site planning
- design and production of traffic management plans
- setting up of traffic management arrangements, on site management of such arrangements and removal of same upon completion of the works
- signing, lighting and guarding in accordance with Chapter 8 of the Traffic Signs Manual including provision of traffic controls and lane/road closures
- full end to end management of street works in accordance with legislative requirements.

The above description is given for guidance only and should not be concluded as finite. The full detail of the requirements are included within the information included with the draft ITT documentation.
