Planning

Respiratory Transformation Partnership

Oxford University Hospitals NHS Foundation Trust

F01: Prior information notice

Prior information only

Notice identifier: 2025/S 000-056731

Procurement identifier (OCID): ocids-h6vhtk-059ab7

Published 15 September 2025, 5:15pm

Section I: Contracting authority

I.1) Name and addresses

Oxford University Hospitals NHS Foundation Trust

John Radcliffe Hospital, Headley Way

Oxford

OX39DU

Contact

Samantha Collins

Email

samantha.collins@healthinnovationoxford.org

Country

United Kingdom

Region code

UKJ14 - Oxfordshire

Justification for not providing organisation identifier

Not on any register

Internet address(es)

Main address

<https://www.ouh.nhs.uk/>

I.3) Communication

Additional information can be obtained from the above-mentioned address

I.4) Type of the contracting authority

Body governed by public law

I.5) Main activity

Health

Section II: Object

II.1) Scope of the procurement

II.1.1) Title

Respiratory Transformation Partnership

II.1.2) Main CPV code

- 85121000 - Medical practice services

II.1.3) Type of contract

Services

II.1.4) Short description

Health Innovation Oxford and Thames Valley ("HIOTV") is conducting this market engagement ("Engagement") as part of the Health Innovation Network(HIN)-led Respiratory Transformation Programme

II.1.5) Estimated total value

Value excluding VAT: £1

II.1.6) Information about lots

This contract is divided into lots: No

II.2) Description

II.2.3) Place of performance

NUTS codes

- UK - United Kingdom

II.2.4) Description of the procurement

Asthma and chronic obstructive pulmonary disease (COPD) together affect millions of people across England and are responsible for a high burden of avoidable hospital admissions, significant health inequalities, and substantial costs to the NHS. Despite advances in medicines, inhaler technologies, diagnostics, and digital tools, uptake and equitable access to innovation and outcomes in respiratory care remains inconsistent.

This engagement represents an opportunity for industry partners to come together with the NHS to explore how innovative medicines, devices, diagnostics and digital solutions can be safely and effectively introduced into asthma and COPD pathways. The aim is to accelerate access to innovation, improve respiratory outcomes, and support the delivery of more sustainable models of care.

The objectives of this engagement are to:

- Identify and engage potential industry partners with innovative asthma and COPD medicines (including biologics and inhaled therapies) that could support the Respiratory Transformation Partnership.
- Recognise innovations in diagnostics, devices and digital tools where these directly enable or enhance the uptake, safe use, and equitable access to respiratory medicines.
- Understand potential forms of contribution from industry partners on an non-exclusive basis,
- Take stock of the medicine innovation landscape and pipeline to inform Health Innovation Network support for innovators and to shape future partnership models.

This is not a call for competition and there is no planned procurement activity or funding available for potential partners at this stage. Insights gathered will be used to shape future policy, strategy and potential partnership models.

HIO TV are making use of the Atamis/FTS channel as the existing infrastructure to maximise potential engagement, and have chosen to issue this as a Prior Information Notice as it is the most appropriate notice type to ensure maximum reach. To reiterate, no public contracts will be awarded as a direct result of this engagement.

Participation

HIO TV is inviting organisations who meet the following Eligibility Criteria:

- organisations that are currently marketing asthma or COPD medicines in the UK, or that have such medicines in development with a marketing authorisation for UK use likely to be sought within the next three years.
- organisations innovations likely to improve access to innovative medicines or improve care pathways for asthma and COPD patients are also welcome to contribute.

HIO TV is offering the opportunity for Respondents to:

- Complete an online Questionnaire("Questionnaire"); and

- If deemed appropriate attend a one-to-one Engagement Meeting to assess potential areas of partnership

Engagement meetings are expected to be held between 1st October and 10th October 2025. HIOTV will use reasonable endeavours to accommodate all interested respondents within this window.

II.2.14) Additional information

All Respondents will be asked to complete a Questionnaire, accessible on request from hin-rtp@healthinnovationoxford.org

Respondents may also submit additional documents as part of their Response.

Individual survey responses will be only made available to teams developing the Respiratory Transformation Partnership within HIOTV and the Office for LifeScience. A summary of insights (non-attributable and anonymised) will be published on the Atamis portal.

Further phases of consultation may be planned during 2025 in respect of enabling access to innovative medicines and technologies for asthma and COPD.

You can opt-in to be notified of these opportunities via the Questionnaire and/or by contacting HIOTV at: hin-rtp@healthinnovationoxford.org

Responses to the Questionnaire should be submitted by 29th Sept 2025.

II.3) Estimated date of publication of contract notice

16 September 2025

Section IV. Procedure

IV.1) Description

IV.1.8) Information about the Government Procurement Agreement (GPA)

The procurement is covered by the Government Procurement Agreement: Yes
