Procedure

Procedure type

Competitive flexible procedure

Competitive flexible procedure description

This procurement is being delivered using the Competitive Flexible Procedure and includes three individual stages. The objective of the procurement is to select a Preferred Bidder, to participate in discussions regarding commercial models that promote affordability for accommodation users and operate on a not-for-profit basis.

The Procurement approach

A preliminary market engagement exercise was undertaken in July 2025. The event was advertised under notice number UK-2788. Information was collated during this event and has been used to inform the following stages.

Stage 1

GWH would like to invite potential bidders to express an interest in this opportunity. A Procurement Specific Questionnaire (PSQ) is located via the Atamis link below and potential bidders are requested to complete and return this document within the timeframe specified.

The responses will be evaluated and the three highest scoring potential bidders, that meet all conditions of participation, will be asked to enter Stage 2, invitation to tender. If only one potential bidder is found to meet the conditions of participation, GWH may choose to appoint a Preferred Bidder at the close of Stage 1. GWH will observe an 8 day standstill from the date of the appointment. If up to three suitable bidders are identified, GWH will commence Stage 2.

Stage 2

GWH will invite a maximum of three potential bidders to submit an invitation to tender. (Tender documents will be shared with the three bidders at the outset of Stage 2) All

submitted responses will be evaluated and GWH will appoint a Preferred Bidder to enter into discussions with the Trust, its partner developer Prime and potential investors. GWH will observe an 8 day standstill from the date of award before appointing a Preferred Bidder. Discussions will commence with the Preferred Bidder to discuss potential commercial models.

If discussions with the Preferred Bidder are unsuccessful, GWH and its partners may choose to conclude the project at this stage. In the event of an appropriate solution, the procurement will progress to Stage 3.

Stage 3 - Formation of a commercial agreement between the parties.

To confirm, this requirement is based on achieving a not for profit commercial model. The value indicated in this notice represents potential turnover only. The estimated value and VAT value are estimated only. The value is representative of the potential between the Operator and the Private Tenants (Trust Staff) . It is not a contract value awarded by the Trust. Please see additional information.

The operating start date is an estimate only and is subject to amendment. The length of the term is an estimate only and is subject to review post the completion of discussions with the Preferred Bidder.
