II.2.4) Description of the procurement

NHS Health Checks are part of the national programme that targets individuals in the 40-74 year old age range who are at risk of developing cardio-vascular disease.

The key aims of the national NHS Health Checks programme are:

- To provide patients between 40 - 74 years a five yearly assessment of their CVD risk, which is communicated and discussed with the patient, allowing the patient to make an informed decision on how to maintain a low risk or reduce a high risk.
- To lower the risk of CVD in patients identified as having 10-year risk > 20% by referring to GP and offering lifestyle advice and interventions.
- To reduce health inequalities - including socio-economic, ethnic and gender inequalities that result from vascular disease (heart disease, stroke, type II diabetes and chronic kidney disease).
- To provide brief intervention advice to patients with less than 20% risk for CVD.

This award is made in accordance with Direct Award Process B of the Health Care Services (Provider Selection Regime) Regulations 2023.

The contract value is £432,000.

The initial contract period is 22 July 2025 - 30 June 2027 with two options to extend for a further 12 months each (maximum contract term is therefore 4 years).

This is a continuation of an existing service with an existing provider.

The provision of the fitting and removal of contraceptive sub dermal implants (SDI's) and/or intrauterine contraceptive devices (IUC's).

The aims of the service are

- (i) ensure that the full range of contraceptive options is provided by practices to patients
- (ii) ensure that the availability of post-coital copper coil (Cu-IUD) fitting for emergency contraception should be more adequately provided as another means of reducing

unplanned pregnancies

(iii) ensure the availability LNG-IUS fitting for gynaecological conditions such as Menorrhagia

The Service will support delivery of the following outcomes found on Public Health Outcomes Framework:

- Under 18 conceptions
- Total prescribed LARC excluding injections

The Service will also contribute towards achieving the following local outcomes:

- Improved sexual health in the local population
- Increased uptake of effective methods of contraception, including access to LARC (Long-Acting Reversible Contraceptive) methods for all age groups.

The award is made via Direct Award Process B of The Health Care Services (Provider Selection Regime) Regulations 2023.

The total contract value is £460,000.

The initial contract term is 22 July 2025 - 30 June 2027 with two options to extend of 12 months each (therefore the maximum contract term is 4 years).

II.2.4) Description of the procurement

The purpose of the service is to support smokers in Peterborough to make a quit attempt in line with NICE Guidance and the Standard Treatment Programme from the National Centre for Smoking Cessation Training (NCSCT).

The key aims of the service are:

- To provide a structured evidence based 4 week quit attempt as part of the 12 week treatment programme that includes setting a quit date alongside behavioural change in conjunction with pharmacotherapy indicated in this specification. This does not include: 'cut down to quit' programmes, or the long-term use of NRT.
- To provide a structured evidence based 4 week quit attempt as part of the 12 week treatment programme that includes setting a quit date alongside behavioural change in conjunction with an electronic cigarette. E-cigarettes are not currently available on prescription but can be purchased by the client to support their quit attempt.
- To contribute to local public health and tobacco control strategies, which have a commitment to reduce smoking prevalence by providing support for people to stop via a structured quit attempt.
- To address the health inequalities experienced by those in Peterborough who smoke .

The award is made via Direct Award Process B of The Health Care Services (Provider

Selection Regime) Regulations 2023.
