Scope

Description

This is for information only, as the contract has been awarded

The following services are to be provided to relevant properties owned and/or managed by West Kent Housing Association:

Grease Extract Ventilation Cleaning: The cleaning programme comprises all grease extract ventilation canopies to be cleaned internally and externally, to include all filters, external

surfaces of light diffusers and internal surfaces of filter housing area as accessible to arms reach from filter housing. The interior surfaces of the grease extract ducting will be cleaned of all dirt, dust and grease deposits from existing access panels and filter entry points, as accessible. All fan blades, housings and the remaining ducting to air will be thoroughly cleaned of all dirt, dust and grease deposits. This shall include any grilles or guards at the point of emission and any incidental fouling of adjacent roof, where access is provided. Systems are to be cleaned to BESA TR19 Grease and NAADUK NAAD21 industry guidelines.

Laundry Extract Ventilation Cleaning: The cleaning programme comprises all accessible ductwork that emanates from industrial dryers, from the connection to the dryer through to the exhaust points. Any sections of ductwork that are inaccessible for cleaning are to be noted on the post service report with suitable remedial actions, such as exchanging sections of flexible ductwork, detailed. All fan blades, housings and the remaining ducting to air will be thoroughly cleaned of all dirt and dust grease deposits. This shall include any grilles or guards at the point of emission..

Systems are to be cleaned to BESA TR19 Air and NAADUK NAAD21 industry guidelines.
