Additional information can be obtained from the above-mentioned address

I.4) Type of the contracting authority

Body governed by public law

I.5) Main activity

Health

Section II: Object

II.1) Scope of the procurement

II.1.1) Title

Innovation in Obesity Pathways - Market Engagement Opportunity

II.1.2) Main CPV code

- 85100000 - Health services

II.1.3) Type of contract

Services

II.1.4) Short description

NHS Surrey Heartlands and NHS Sussex ICBs are preparing to bid for grant funding under the Obesity Pathway Innovation Programme (OPIP): Strand 3-Combined Access and Management for Healthy Ageing and Tackling Obesity, a national innovation competition jointly funded by the Department for Science, Innovation and Technology (DSIT) and Eli Lilly and Company Limited, with up to £85 million available across the UK.

To inform our competition response, we are launching a joint market engagement exercise to explore innovative ideas, technologies, and service models that could inform our competition entries and shape future service opportunities in obesity prevention and management in our ICBs.

II.1.6) Information about lots

This contract is divided into lots: Yes

The contracting authority reserves the right to award contracts combining the following lots or groups of lots:

This contract could be divided into Lots (Surrey Heartlands ICB and Sussex ICB) although this has not been finalised yet.

II.2) Description

II.2.1) Title

Lot No

1

II.2.2) Additional CPV code(s)

- 85000000 - Health and social work services

II.2.3) Place of performance

NUTS codes

- UKJ25 - West Surrey
- UKJ26 - East Surrey

II.2.4) Description of the procurement

NHS Surrey Heartlands and NHS Sussex ICBs are preparing to bid for grant funding under the Obesity Pathway Innovation Programme (OPIP): Strand 3-Combined Access and Management for Healthy Ageing and Tackling Obesity, a national innovation competition jointly funded by the Department for Science, Innovation and Technology (DSIT) and Eli Lilly and Company Limited, with up to £85 million available across the UK. A single ICB cannot be awarded any more than £8 million in total.

The OPIP Strand 3 competition seeks to fund innovative, community and primary care-based weight management pathways that are:

- Clinically appropriate and resource-efficient
- Capable of recruiting significant patient numbers
- Aligned with NICE guidelines and national standards
- Designed to be sustainable beyond the grant period

Successful projects must demonstrate readiness to deliver services by August 2026, with clear governance, data reporting, and transition plans for long-term commissioning. Consequently, if Surrey Heartlands and/or Sussex are granted funding we will very soon afterwards launch a joint, or independent procurement processes, for service delivery.

To inform our competition response, we are launching a joint market engagement exercise to explore innovative ideas, technologies, and service models that could inform our competition entries and shape future service opportunities in obesity prevention and management in our ICBs. Our competition submission areas of innovation focus are intended to be:

1. Pathways for 13-30 Year Olds

- Family-based lifestyle interventions
- Age-appropriate, multidisciplinary care models
- Improved access to obesity support and prevention services

2. Pathways for People with Serious Mental Illness (SMI)

- Integrated physical and mental health care
- Support for medication adherence and holistic management

Why We're Engaging Now

This engagement is designed to:

- Inform our grant application by identifying innovative, scalable, and sustainable solution ideas that could be incorporated into our pathway competition submission and subsequent service specifications.
- Understand market readiness for delivering new models of care aligned with OPIP Strand 3 requirements.
- Ensure our grant application proposals reflect lived experience, address health inequalities, and integrate with existing NHS and local authority systems.

Who Should Engage

We welcome input from:

- Health and care providers
- Technology and digital health companies
- Charities and community organisations
- Academic and research institutions
- Innovators with relevant expertise

We are particularly interested in:

- Digital platforms and remote care models
- Behavioural and peer-led support
- Community-based interventions
- Novel clinical pathways
