Procedure

Procedure type

Competitive flexible procedure

Competitive flexible procedure description

The open framework is being procured through a competitive flexible procedure, consisting of two stages, in accordance with the Procurement Act 2023.

The ITT document describes how the Procurement will be conducted, including details of the associated Procurement timetable, participation and award criteria and how to respond to this opportunity. Suppliers are strongly encouraged to read this document before preparing their submission.

The first stage requires all interested organisations to complete and submit the Procurement Specific Questionnaire (PSQ), this includes questions on the tenderer's relevant experience. PSQs will then be evaluated by the Council to determine which organisations will be shortlisted and invited through to the second stage.
