Engagement

Engagement deadline

3 October 2025

Engagement process description

The EA is seeking a supplier to manage and maintain EA's current bulk fuel tanks, pumps and Fuel Management System - Jigsaw Fuel Management - to remotely monitor and control the fuel dispensed from the existing diesel tanks and allow for 24/7 unmanned fuel dispensing at Transport Depots across Northern Ireland.

The successful Supplier will also be required to provide the following requirements throughout the lifetime of the contract;

Provide maintenance and repair services for the EA's bulk fuel tanks and fuel pumps.

Provision of pump calibration services and repairs.

Maintenance of remote tank gauge system.

Supplier must be able to provide same day support response in the event of system or on site equipment failure.

Annual license fee to include all software upgrades and maintenance support for existing Jigsaw Fuel Management system

Ensure the fuel management system provides authorised use only of bulk fuel by fob control which can be attached to vehicle keys and individually linked to a vehicle.

Provide additional or replacement fobs compatible with existing system

Provide real time electronic monitoring and reporting of fuel levels and usage per vehicle via web portal.

at the EA's discretion to provide additional tanks, pumps and control systems for expansion of HVO usage (Carbon reduction).

The PME questionnaire is provided at the following link

<https://forms.office.com/e/Qv1VHGetWg>

Interested participants should complete the questionnaire as soon as possible and by 3pm on Friday 3 October 2025 at the latest. If you have any other questions that you would wish to raise EA are happy to consider these also, such queries should be submitted following the declaration on the questionnaire.
