II.1.2) Main CPV code

- 85100000 - Health services

II.1.3) Type of contract

Services

II.1.4) Short description

NHS Norfolk and Waveney Integrated Care Board invited suitably qualified and experienced providers to express their interest in delivering a Norfolk Community Learning Disability and Intensive Support Service

The Community Learning Disability Service will work with all people with a learning disability registered with a GP in Norfolk. To access the services of Tier 3 and Tier 4 of the service specification, adults must be 18+.

To classify as severe learning disability, the following features must be present:

- A significantly reduced ability to understand new or complex information or learn new skills (impaired intelligence).
- A reduced ability to cope independently (impaired social functioning).
- This must begin before adulthood, with a lasting effect on development.

This definition encompasses people with a broad range of disabilities. The presence of a low intelligence quotient, for example an IQ below 70, is not itself, a sufficient reason for deciding whether an individual should be provided with additional health and social care support.

We also want the Community Learning Disability Service to advise, guide, up-skill and raise awareness with social care provision and primary care. In these instances, these cases may be for a wider spectrum of people rather than just those with a severe learning disability.

Service Aims

- Supporting access to mainstream health services.
- Enabling others to deliver high-quality, person-centered care.
- Delivering direct therapeutic interventions.
- Positive response to crisis situations.
- Quality assurance.
- Strategic service development and transformation in support of commissioners..

This is a 3 year contract with the option to extend for up to an additional 2 years. The contract has an annual value of £6.614m per annum.
