Tender

CPU 5277 Passenger Transport Logistics (Home to School) Software System

Nottingham City Council

UK4: Tender notice - Procurement Act 2023 - [view information about notice types](#)

Notice identifier: 2025/S 000-059449

Procurement identifier (OCID): ocids-h6vhtk-05a182

Published 24 September 2025, 5:24pm

Scope

Reference

5277

Description

Our current system (Transys) is outdated and no longer fit for purpose in its current version. A modern replacement is essential to meet legal obligations, improve service quality, and control costs.

The Authority now wants to adopt a cloud-based transport system that offers route optimisation, real-time tracking, and integrated reporting (some of which will be compulsory reporting to DofE). Nottingham City Council wants the new contract to align with the following strategic priorities:

- Digital Modernisation: The new system will be cloud-based, scalable and user-friendly, replacing legacy infrastructure.
- Data-Driven Decisions: It will enable accurate reporting, performance monitoring, and

financial forecasting.

- Smart City Readiness: The system can integrate with mapping, tracking, and future mobility services.
- Digital Inclusion: Accessible across devices, with single sign-on and compliance with accessibility standards.
- Data Governance: Secure, compliant data storage with audit trails and IT-reviewed security protocols.

Total value (estimated)

- £250,000 excluding VAT
- £300,000 including VAT

Above the relevant threshold

Contract dates (estimated)

- 1 February 2026 to 31 January 2029
