### **Scope**

### **Description**

Since 2019, there have been significant changes in the technological landscape and to the priorities of the DfT. At the DfT, we are looking to procure a Supplier Risk Monitoring system that supports new and more efficient ways of working and further supports Supplier Monitoring between the DfT and stakeholders. The system will be managed centrally by a Systems Team with the ability to report centrally or by organisation level when required.

As a minimum, the Supplier Risk Management System should be compliant with requirements as laid out within The Procurement Act 2023 with functions to support monitoring of supplier performance, risk, and compliance.

### **Contract dates (estimated)**
