### **Scope**

### **Reference**

20068

### **Description**

Additional testing services are required by the Future TRS project due to extension of the timeline (from

26/06/25 to end of April 2026) and increased resource demands.

Following analysis by the TRA project management team, services are required to cover a number of areas

(via SoWs) including but not limited to the following high level areas:

- UAT Planning including production of all test scripts covering all To-Be User Journeys, UX Designs, and Process Maps as per CapGemini formal artefacts.
- Execution of UAT Test Cycles, including operation of sub-processes such as Smoke

Testing, test execution, Bulk Prioritisation, and Regression Testing, with reference to Testing & Deployment

Pack v1.0 and Test Workstream PID.

- Collaboration with CapGemini UR / UX team to ensure execution of External Test Cycles.
- Overseeing execution of Penetration Testing via TRA's security testing supplier(s).
- Execution of Accessibility testing to relevant government standards across UAT and External Testing phases.
- Overseeing Operational Acceptance Testing / NFR testing in collaboration with CapGemini.
- Communication, Reporting and Escalation in line with project governance, working closely with TRA project management team.
