Justifications for contract modification

- Unforeseeable circumstances

Reason that these justifications apply

The extension by an additional two months is necessary to allow sufficient time for internal capability to be built. Due to unforeseen circumstances, the original timeline for onboarding and training permanent resources has been delayed. However, a robust transition plan is now in place, and the required internal capability will be fully established within the extended period.

This short extension ensures continuity of service and avoids disruption to critical priorities, while supporting a smooth and sustainable transition to internal delivery.
