II.2.4) Description of the procurement

Framework for the supply including design, manufacture, works testing, delivery, installation, commissioning, site testing, servicing, maintenance and refurbishment of Standby Generators and all necessary ancillary equipment for new sites and to refurbish and/or replace existing installations throughout all Scottish Water areas including Highlands and islands.

- The framework shall include but not be limited to the supply of “diesel” standby generators (fixed and mobile), all ancillary equipment, generator control panels, fuel bulk and day storage tanks and transfer systems, pipework, cabling, instrumentation, acoustic coverings/containers, gauges & valves and optional extra metering to demonstrate power supplied.
- The installation and maintenance of external power supply intake sockets and internal mains/generator changeover switches, and all other necessary ancillary equipment to permit the connection of mobile generators at new sites, or at existing sites without mobile generator connection.
- The standby generators shall be capable of operating on both diesel and HVO fuel types. It is anticipated that HVO fuel shall be used as standard throughout our sites, however, we may require to switch to diesel as required from time to time and the generator sets should allow this.
- Ancillary inspection and reporting services shall be incorporated.
