Reference

2025/000-029573

Description

Design, supply, and install a solar PV system with a minimum solar array of 50,000 kWh.

Conduct site assessment and structural integrity checks to ensure suitability.

Provide all necessary permits, approvals, and regulatory compliance for installation.

Supply high-efficiency solar panels, inverters, mounting structures, and other essential components.

Install a monitoring system for real-time energy tracking and efficiency analysis.

Ensure grid connectivity and compliance with relevant electricity supply regulations.

Conduct testing, commissioning, and user training on system operation and maintenance.

Provide a comprehensive maintenance plan, including warranty and after-sales support.

The solar panel system must:

Meet a minimum solar array of 50,000 kWh.

Utilize Tier-1 solar PV modules with high efficiency.

Include MPPT inverters for optimized energy conversion.

Be compatible with battery storage systems (optional).

Have a minimum warranty of 10 years for panels and 5 years for inverters.

Comply with BS EN 62196, IEC 61439-7, IEC 61851, and other relevant standards.

Bidders must:

Be registered and certified solar PV installers.

Have a proven track record in commercial solar installations.

Provide evidence of previous similar projects.

Demonstrate technical expertise and financial stability.

Provide a detailed project timeline and implementation plan.
