Body worn Camera

Dorset & Wiltshire Fire and Rescue Authority

UK2: Preliminary market engagement notice - Procurement Act 2023 - [view information about notice types](#)

Notice identifier: 2025/S 000-059820

Procurement identifier (OCID): ocds-h6vhtk-05a265

Published 25 September 2025, 3:55pm

Scope

Description

DWFRS operates Body Worn Cameras for a variety of purposes across the organisation. Approximately 150 cameras are operated for purposes that include:

- Recording Incidents
- Delivering Training
- Fire Investigation
- Fire Prevention support

DWFRS aim to procure, in the next 12 months, a single package solution, which includes hardware (cameras), integrated software and Cloud-Based storage, which will replace the current on-premise solution.

To help DWFRS understand what state-of-the-art technology has to offer, we would like to invite potential suppliers to demonstrate the latest options for:

- Image recording, upload, storage and accessibility

- Image Security
- Software and Hardware support and maintenance
- Camera battery life, weight and mounting

Total value (estimated)

- £200,000 excluding VAT
- £240,000 including VAT

Below the relevant threshold

Contract dates (estimated)

- 30 September 2026 to 1 August 2029
- 2 years, 10 months, 2 days

Main procurement category

Goods

CPV classifications

- 38651000 - Cameras

Contract locations

- UKC - North East (England)
- UKD - North West (England)

- UKE - Yorkshire and the Humber
 - UKF - East Midlands (England)
 - UKG - West Midlands (England)
 - UKH - East of England
 - UKI - London
 - UKJ - South East (England)
 - UKK - South West (England)
-

Engagement

Engagement deadline

31 October 2025

Engagement process description

The preferred engagement will be through an online presentation that demonstrates the capabilities of Body Worn Cameras to DWFRS. The deadline for presentations of capability will be mid December 2025. The main objective is to support DWFRS in identifying the latest technologies that could provide the Service with Cameras, Managing Software and Cloud Storage. The Service is looking for information on data encryption, and other security features. We also want to understand how information is stored and how information is transferred to the Cloud. The options for hardware must describe equipment battery life, weight and the attachment methods that are available. It is also important to understand the durability of the camera equipment in harsh environments (heat, water etc..). The presentations will also be required to cover support and maintenance options for both hardware and software elements.

To confirm your expression of interest in this opportunity, please send via email to Olalekan.Oyebamiji@dwfire.org.uk.
