Scope

Description

Sampling for lead in food produced or grown in high geochemical lead areas of the GB.

The levels of lead present in food can vary depending on several factors, one being the presence of (high) levels of geochemical lead in the location in which food products have or are being grown or reared.

There are maximum levels for lead in some foods and due to the variable nature of the presence of geochemical lead throughout the UK, it is necessary that the FSA has an understanding on the levels of lead in food products grown or reared in medium/high geochemical lead (ranges TBD from literature data).

The work is considered one of the FSA's main areas of research interest (under chemical hazards; including nanomaterials and microplastics) and will be used to inform long-term policy and/or strategic decision making.

Other information

Payment terms

Payment of valid and undisputed invoices will be made within 30 days of receipt of the invoice or, if later, the date by which the payment falls due in accordance with the invoice, which must be submitted promptly by the Supplier.

All invoices must be sent, quoting a valid Purchase Order Number (PO Number) and any other relevant details including the minimum required information set out in Section 68(9) of the Procurement Act 2023, to: fsa.payments@food.gov.uk.

Within 10 Working Days of receipt of your countersigned copy of this Order Form, we will send you a unique PO Number. You must be in receipt of a valid PO Number before submitting an invoice.

To avoid delay in payment it is important that the invoice is compliant and that it includes a valid PO Number, item number (if applicable) and the details (name, email, and telephone number) of your Buyer contact (i.e., Buyer Authorised Representative). Non-compliant invoices may be sent back to you, which may lead to a delay in payment.
