## Scope

#### Reference

CPA/SPU/2712P

### **Description**

This is a UK6 Notice. Dytask is a policing-focused GIS + patrol/tasking platform that is built to consume authoritative UK geospatial datasets (Ordnance Survey, AddressBase/gazetteers), expose standard geospatial services and connect to our core operational systems, such as SAFE and NICHE to import historic incident data. It provides map-driven analysis, demand prediction, patrol planning and live resource location with mobile tasking. Those capabilities, combined with standard support and presence on public procurement frameworks, are the principal arguments for keeping Innaxys rather than switching suppliers.

Extensive work has been conducted with the supplier to create a solution that is bespoke to the Force's requirements. Moving to a new platform would involve not just the purchase of a new solution, but redevelopment of existing interfaces. The contract value shown relates to the maximum contract duration (10yrs). The initial contract to be awarded is for 5yrs at a value of £210k.

# Contract 1. GIS Mapping Solution - CPA/SPU/2712P

# **Supplier**

• Innaxys Limited

### **Contract value**

- £410,000 excluding VAT
