### **Scope**

### **Description**

Reading BC are completing an ITT exercise for the provision of Supported Living Framework

This Supported Living Framework will seamlessly replace the existing framework which is due to expire on 31 March 2026.

The new framework includes 3 lots and will seek to address gaps in the market and areas where improvement is required. These include:

Services that support complex needs.

Community Support options, particularly for those with care packages for minimal hours per week.

Self-contained accommodation options for Individuals who struggle to share facilities.

Move on options and pathways through the service to support people to greater independence.

Transition services for young adults.

Our aspirations for Supported Living will focus upon the following key areas:

Supporting the Life that Matters to You

Suitable Accommodation

Collaboration

Health

Stable staffing

Suppliers that would like to take part in this process are invited to "Express Interest" upon which they will be given access to the full documentation delivered through this portal. Documents can be accessed from the "My Tenders" area of this website by selecting the "View Details" button for the project.

- 1 April 2026 to 31 March 2031
- Possible extension to 1 April 2036
- 10 years, 1 day

### Description of possible extension:

The Council believes that 5 years plus up to 5 years is an appropriate and proportionate model for the type of services being commissioned and the wider supported living market. This duration will help in fostering productive relationships with suppliers; will help to ensure that competition and value for money are maintained over time and will also enable the Council to focus on innovation and continuous improvement whilst creating a less potentially disruptive impact on Individuals who use the Service.
