C3657

Description

The FCA has a requirement for a Property and Evidence Management System (PEMS). The PEMS we are seeking must be capable of delivering the following core outcomes:

- **Electronic Capture and Storage:** Ability to electronically capture and store physical exhibits information.
- **Exhibit Access Management:** Secure and configurable access control for maintaining chain of custody.
- **Remote Search Data Capture:** Functionality to record enforcement search details remotely in real time.
- **AI-Enhanced Features:** Integration of AI tools to streamline evidence handling and

reduce manual input.

The objectives of this Pre-Market Engagement is to:

- Develop FCAs requirements for a possible future procurement
- Support the design of the procedure, conditions or participation or award criteria for a possible future procurement
- Identifying suppliers that may be able to supply the services required for a possible future procurement
