Scope

Description

The University of Brighton requires an off the shelf solution to automate the processes and checks that international applicants go through to verify their suitability to be issued with a CAS by the University. This includes an online application workflow, tracking functions to proceed to CAS-ready stage, and booking and conducting of online pre-CAS interviews. The award is for the provision of CAS Shield, Interview Management and Data Insights software. The solution allows for the assessment of the suitability of prospective international students against UKVI criteria. The software also includes Data Insights reporting, tracking and analysis tool to aid international student recruitment and conversion.
