The Authority is using the Competitive Flexible Procedure in accordance with the Procurement Act 2023, providing the opportunity for Tenderers to interact with a two-way dialogue with the Authority, as it considers that this tailored process can best meet the Authority's objectives for the service requirements and commercial terms.

The proposed award criteria is 60% Quality (including Social Value) and 40% Price and the sub-criteria is to be more fully set out in the Invitation to Tender pack (Stage 2 and Optional Stage 3 of the procurement process).

The Authority reserves its right to rely on Section 24 of the Procurement Act 2023 to refine the award criteria as part of the competitive flexible procedure. Refinements of the award criteria may include but are not limited to:

- Refining award criteria weightings

- Adding sub-criteria or more detail to the sub-criteria (relevant to the existing main criteria).

In addition, the Authority may rely on Section 31 of the Procurement Act 2023 to modify the terms of the procurement as set out in this Tender Notice or the associated Invitation to Participate and/or the Tender documents (including the Invitation to Tender and Optional Invitation to Submit Final Tender). Where any such modification is made, the Authority will comply with the requirements of the Procurement Act 2023, including publication of a new notice where the modification is substantial.

Tenderers are expected to bring forth an operational model which reflects the Authority's aspirations but cannot be specified ahead of in-depth dialogue on what the market can offer but will have a major role in defining the solution.

The Authority is potentially interested in exploring options around concessions or hybrid model (concession/management) or any other appropriate form of contract to be agreed, as a non-mandatory variant option.
