Tender

Framework Agreement for the Supply and Support of Sterile Connection Devices

NHS Blood and Transplant

UK4: Tender notice - Procurement Act 2023 - [view information about notice types](#)

Notice identifier: 2025/S 000-061050

Procurement identifier (OCID): ocids-h6vhtk-05a551

Published 30 September 2025, 4:49pm

Scope

Description

Sterile Connection Devices (SCDs) are essential for Blood Services to produce a wide range of blood components. Their use allows the sterile connection of blood packs and consumables, negating the use of a clean room. SCDs are used to connect ancillary packs to primary components to allow the manufacture of secondary components (washed red cells or platelets), in the production of pooled components (platelets, granulocytes and cryoprecipitate) and to manufacture neonatal split components (red cells, plasma and platelets). SCD's are also used during bacterial screening & Quality Monitoring Sampling and in areas outside of blood supply such as Tissue Services, Cellular and Molecular Therapy (CMT).

Commercial tool

Establishes a framework

Total value (estimated)

- £7,351,761 excluding VAT
- £8,822,113 including VAT

Above the relevant threshold

Contract dates (estimated)

- 1 February 2026 to 31 January 2028
- Possible extension to 31 January 2029
- 3 years

Description of possible extension:

one additional year available as monthly or cumulative extensions.

Options

The right to additional purchases while the contract is valid.

one additional year available as monthly or cumulative extensions.

Procedure

Procedure type

Competitive flexible procedure

Competitive flexible procedure description

This Procurement is being run under a multi-stage Competitive Flexible procedure pursuant to section 20(2)(b) of the Procurement Act 2023 to establish a Framework.

It is the intention of the Authority to follow a two-stage process under this procedure as follows. However, the Authority retains the right to amend the stages if required throughout the process. This includes amending the number of stages or re-running a stage of the process.

Tender Stage 1:

Publish tender notice and tender documents

Receive tenders

Tender Stage 2:

Validate devices

Award Stage:

Notify suppliers and issue assessment summaries

Publish contract award notice and commence standstill

Award contract

The tender process will include Conditions of Participation which will not be used as a formal stage in order to down select suppliers but will ensure that tenderer's meet minimum requirements.

Further information can be found in the tender documents.
