#### Scope

#### Reference

CO6128

#### **Description**

The main objective of the project is to procure a minimum of 300 fast charging points to meet the projected increase in demand for charging points in the borough over the next two years. The council has been awarded £1.2m for funding new EV charging under the Department for Transport's LEVI (Local Electric Vehicle Infrastructure) scheme. One of the scheme's essential requirements to access the funding is for local authorities to form partnerships to purchase at scale and ensure value for money for public funding.

The London Borough of Tower Hamlets has partnered with the London Borough of Barking and Dagenham to access the LEVI funding. LBTH is leading on the procurement of EV charging points across two London Boroughs. LEVI Partnership 4 (LP4) is made up of Tower Hamlets and Barking and Dagenham. LP4 is seeking to award contracts to deliver EV charging points across both boroughs The winning bidder will enter into

separate contracts with each local authority. LP4 require a minimum of 300 fast (under 22kw) chargers in Tower Hamlets and 30 rapid chargers across both boroughs (26 in Barking and Dagenham and 4 in Tower Hamlets).
