Justification for not publishing a preliminary market engagement notice

A preliminary market engagement notice has been published (see OCID ocids-h6vhtk-05950c) . However, following market engagement the Authority has decided to publish two separate tenders which relate to the original pipeline and preliminary market engagement notices. The Find a Tender system appears to only allow one tender notice to be linked to an OCID, so the checkbox for this particular notice has had to be unchecked to allow for publication of this tender notice. The other related tender notice can be identified as 2025/S 000-062072.
