### **Scope**

### **Reference**

DUNEWBDS

### **Description**

We are procuring a winter bird disturbance survey, which its aim is to supplement visitor and desk-based work with detailed ornithological fieldwork. In some parts of the Humber Estuary we know birds are often well away from any sources of disturbance and access levels in some locations are very low. Rather than attempt to cover the entire estuary, resources should be targeted to three particular survey point locations selected for their importance for birds and where it was recognised there could be access issues, i.e. areas where access and birds overlap. • Humberstone Fitties • Cleethorpes Leisure Centre • Pyewipe
