Section II: Object

II.1) Scope of the procurement

II.1.1) Title

Digital and Data Capabilities Framework

II.1.2) Main CPV code

- 72000000 - IT services: consulting, software development, Internet and support

II.1.3) Type of contract

Services

II.1.4) Short description

The tender was completed under the new NESO entity with Public procurement organisation number (PPON) PHQL-5234-MWWV

National Grid Electricity System Operator Limited (NGESO), a legally separate business within the National Grid Group, is the electricity system operator for Great Britain. NGESO moves electricity around the system to keep homes and businesses supplied with the energy they need 24/7.

NGESO became a legally separate business from the rest of the National Grid Group in 2019. In summer 2024, NGESO will change its name to National Energy System Operator

(NESO) and become owned by the UK government. Where in this notice we refer to NGENSO, this should be understood as also including NESO after the change is taken place.

The Digital, Data and Technology (DD&T) organisation within NGENSO provides the sourcing capabilities, roles and skills required to achieve NGENSO digital deliverables.

To support the role of the National Energy System Operator (NGESO), we are looking to put in place a digital and data capabilities framework, encompassing the following lots:

- Lot 1: All Digital & Data
- Lot 2: Data & AI
- Lot 3: Security
- Lot 4: Engineering and Architecture
- Lot 5: Management
