General public services

Section II: Object

II.1) Scope of the procurement

II.1.1) Title

Future Network Programme

II.1.2) Main CPV code

- 72222300 - Information technology services

II.1.3) Type of contract

Services

II.1.4) Short description

The City of London Corporation (COL) and the City of London Police (COLP) are seeking to appoint a Managed Service Provider (MSP) to design, implement, transition, and manage a modern, secure, and resilient network service across their combined estate. This includes delivering a future network solution encompassing SASE (Secure Access Service Edge), SD-WAN, LAN/Wi-Fi, Internet connectivity, and associated network security services, supporting approximately 120 Corporation sites, 100 additional CC-TV sites and 12 Police sites across varied environments – from mission-critical datacentres to ruggedised CCTV installations.

The future network will:

- Adopt a cloud-first, Wi-Fi-first approach with integrated security and flexibility for remote working.
- Support major programmes, including the delivery of network services to the new City of London Police HQ at Salisbury Square by early 2026.
- Ensure resilience and scalability to meet increasing demands across policing, CCTV, and the Corporation's digital estate.

The MSP will be expected to:

- Lead full network design, build, transition, and ongoing managed service provision.
- Manage and coordinate specialist sub-suppliers for hardware, cabling, and ruggedised installations.
- Deliver carrier diversity and site-specific solutions, tailored from critical headquarters to remote CCTV poles.
- Provide ongoing network monitoring, performance assurance, and incident response.

This procurement aims to secure a strategic partner capable of delivering an end-to-end network transformation programme and sustained operational excellence.

II.1.6) Information about lots

This contract is divided into lots: No

II.1.7) Total value of the procurement (excluding VAT)

Value excluding VAT: £22,000,000

II.2) Description

II.2.3) Place of performance

NUTS codes

- UKI - London

II.2.4) Description of the procurement

The City of London Corporation (COL) and the City of London Police (COLP) are seeking to appoint a Managed Service Provider (MSP) to design, implement, transition, and manage a modern, secure, and resilient network service across their combined estate.

This includes delivering a future network solution encompassing SASE (Secure Access Service Edge), SD-WAN, LAN/Wi-Fi, Internet connectivity, and associated network security services, supporting approximately 120 Corporation sites, 100 additional CC-TV sites and 12 Police sites across varied environments – from mission-critical datacentres to ruggedised CCTV installations.

The future network will:
