Conditions for participation

Objective rules and criteria for participation

Under the Public Services (Social Value) Act 2012, Contracting Authorities must consider:

(a) How what is proposed to be procured might improve the economic, social, and environmental well-being of the area where they exercise their functions; and

(b) How, in conducting the process of procurement, they might act with a view to securing that improvement. Accordingly, the subject matter of the contract has been scoped to take into account the priorities of the Contracting Authority relating to "economic, social, and environmental well-being".

The central digital platform is an online resource, Find a Tender Service (FTS) which will make it easier for suppliers to find and bid for contract opportunities. It is the place where

all the regulated public procurement notices are published and supplier information is stored and updated for inclusion within bid opportunities. To take part in this bid opportunity you will need to register on FTS. It is the supplier's responsibility to ensure that the data they are sharing is accurate. This will include the need to complete basic information on the supplier information, declare it is correct and generate a share code or download a file of their information. The supplier will need to submit this share code or file in the way that was determined by the buyer in the tender notice or tender documents. If you have previously registered on Find a Tender Service you will need to re-register and enter your organisation information at <https://www.gov.uk/find-tender>.

Suppliers will always need to complete their bids in the form and manner required by the contracting authority.

The basic principles of a single stage competitive tendering procedure in line with Section 84 and 85 of the Procurement Act 2023 will be followed for this under threshold Light Touch Service procurement.
