Water

Section II: Object

II.1) Scope of the procurement

II.1.1) Title

Waste Management Biosolids System

Reference number

SW24/DIG/1479

II.1.2) Main CPV code

- 72222300 - Information technology services

II.1.3) Type of contract

Services

II.1.4) Short description

Scottish Water is looking to purchase a configurable cloud hosted platform that provides us with an end-to-end solution for managing our nutrient-rich biosolids within the requirements and conditions set out in the Biosolids Assurance Scheme (BAS) and our wastewater recycling operations.

II.1.6) Information about lots

This contract is divided into lots: No

II.1.7) Total value of the procurement (excluding VAT)

Value excluding VAT: £885,000

II.2) Description

II.2.3) Place of performance

NUTS codes

- UKM - Scotland

II.2.4) Description of the procurement

Scottish Water is looking to purchase a configurable cloud hosted platform that provides

us with an end-to-end solution for managing our nutrient-rich biosolids within the requirements and conditions set out in the Biosolids Assurance Scheme (BAS) and our wastewater recycling operations. Wastewater Operations is responsible for the collection, transportation, management, and recycling of treated biosolids. It is heavily regulated and operates under strict environmental and health and safety standards. Detailed records and reports of our operations, including volumes, types, and recycling routes are required to be kept and the management of this data is becoming more time consuming. The successful deployment of this application will assist Scottish Water to enhance visibility and sustainability whilst improving our customer satisfaction and compliance so that we meet our regulatory requirements for the management of our biosolids recycling within our Wastewater Operations services.

SCOPE ITEMS

Application capable of managing our Biosolids Management Processes which include

Compliance with all Biosolids Assurance Scheme BAS requirements and conditions

HACCP plan validation status information

Cake distribution

Biosolid Transport & Application to Land Risk Assessments

Stockpile management and monitoring.

Outlet Management

Demand Management

Sampling data including biosolids analysis in line with BAS requirements.

Sampling data including soil analysis in line with BAS requirements.

Calculations on element additions to each field in line with configurable regulatory limits

Customer and farm details.

Provides accurate GIS Field information integrating with Scottish Water and other relevant layers.

Mapping ability should allow marking of field boundaries, water courses and features.

Previous successful experience of delivering for BAS compliant activities with other UK

water companies with the ability to tailor to Scottish regulations & legislation

Reporting ability in line with BAS requirements

Production of nutritional benefit statements after recycling Biosolids

Rollout of behaviour analytics / audit trails / Trend analysis

Ability to import historic data

Compliant with GDPR components/rules for personal data

User provisioning via Azure AD

Authentication & Single Sign on

Ability to integrate with Microsoft Dynamics, Power BI, LIMS labware and Salesforce

Ability to integrate with SW weighbridge applications. Ability to use Azure as an integration tool and use of Azure data lake

II.2.5) Award criteria

Cost criterion - Name: Commercial / Weighting: 50%

Cost criterion - Name: Technical / Weighting: 50%

II.2.11) Information about options

Options: No

Section IV. Procedure

IV.1) Description

IV.1.1) Type of procedure

Negotiated procedure with prior call for competition

IV.1.3) Information about a framework agreement or a dynamic purchasing system

The procurement involves the establishment of a framework agreement
