Scope

Reference

RM6347

Description

This framework is for the provision of transport and

mobility services. This agreement supplies technology goods and services for sustainable urban, rural and intercity transport and mobility. This

includes:

- transport technology for aviation, rail, road, urban and maritime sectors
- transport system integration, ITS, Back Office & Data
- professional Services & Data Consultancy for Transport
- smart ticketing

- electric vehicle charging solutions & infrastructure
- parking infrastructure & management
- environmental monitoring for and of transport solutions
- enforcement & compliance solution
- connected infrastructure, Internet of things and real time data, "Smart Cities" or "Connected Places"

We have used the dummy supplier data for each contract within the contract awarded supplier sections and the unsuccessful suppliers in tenders section within this notice. The link to the full list of suppliers which has been published on CCS website is detailed in awarded supplier and unsuccessful supplier website field within this notice.

Commercial tool

Establishes an open framework

A series of frameworks with substantially the same terms. Awarded suppliers are carried over and new suppliers can bid.

Lot 1. Transport Professional Services

Description

Transport related professional services, consultancy and project management. Services include:

- scope and project feasibility studies

- training and behavioural change
 - development of strategy for deployment of Mobility as a Service (Maas)
 - design consultancy for transport infrastructure
 - Home Office Type Approval (HOTA) assurance, testing and evaluation (this covers road traffic enforcement devices such as speedometers and breath testing equipment)
-

Lot 2. Transport Data Services

Description

Transport related data services for collecting, processing, analysing and sharing data. Services include:

- traffic flow analysis
 - vehicle movement analysis
 - public transit scheduling
 - passenger counting
 - infrastructure utilisation
-

Lot 3. Parking Management

Description

Parking related goods and services to manage your parking needs. Includes on-street and off-street car parking. This includes:

- parking enforcement services

- back office parking software and applications
 - parking operational management
 - parking infrastructure, including bay mark, pay meters, customer service kiosks, signage and wayfinding, barriers and more
-

Lot 4. Environmental Monitoring & Climate Resilience

Description

Technology that can help you understand and address issues that affect the environment. This includes:

- professional services
 - data and software services
 - environmental monitoring solutions (weather, air quality, light, water, noise, dust and vibration)
 - animal and ecological technology to monitor the location, movement and behaviour of animals and other biological elements
-

Lot 5. Enforcement, Security and Compliance

Description

Enforcement, security, compliance and emergency service technologies and services. This includes:

- road traffic law enforcement devices (RTLED)
- enforcement systems that allow official records or measurements to be captured using a verified and approved device

- technology systems and services to prevent trespass, property damage and theft, anti-social behaviour and enhance security
 - technologies for incident safety, or for emergency response
-

Lot 6. Zero Emission Vehicle Infrastructure

Description

Electric vehicle charging infrastructure. This includes:

- professional services
 - vehicle charging points
 - energy generation and storage
 - infrastructure and ancillaries associated with charge points, such as barriers, accessibility, signage and more
-

Lot 7a. Transport System Integration

Description

This will help you combine your hardware, software and other components to create a unified transport system. Some services include:

- system integration
- project management
- system configuration
- maintenance and support

- security and compliance
-

Lot 7b. Smart Ticketing

Description

System integration specifically for smart ticketing and integrated travel. This includes:

- ticketing solutions
 - payment systems
 - customer service
 - back office tools
-

Lot 7c. Transport Network Management

Description

Back office requirements within transport. This involves intelligent asset management capabilities, system packages, software and services to support network operation and management.

Lot 8a. Network Devices

Description

Systems and equipment to support the installation and maintenance of wired, wireless, and mobile transport communications.

Lot 8b. Cabinets, Furniture, Storage & Ancillaries

Description

Supply of goods and associated installation services for:

- equipment cabinets
 - street furniture
 - fencing
 - security systems
 - equipment storage
 - minor structures
 - related ancillaries and hardware such as bracketry, fixings, security features and safety
-

Lot 8c. Lighting & Electrical

Description

Permanently deployed lighting solutions for all transport modes and uses, including:

- professional services that covers lighting design and review
 - street and exterior lighting equipment
 - associated equipment
-

Lot 8d. Traffic Management Technologies

Description

Systems to control traffic flow, both permanent and temporary. This includes managing traffic during roadworks and events, as well as handling legal traffic orders.

Lot 8e. Detectors, Informing Systems & Communication Technologies

Description

Equipment that spots, shows and shares traffic information, including:

- cameras and sensors
 - electronic road signs
 - emergency phones and radio systems
-

Contract 1. Lot 1. Transport Professional Services

Lots

Lot 1. Transport Professional Services

Supplier

- Withheld Section94 supplier

Contract value

- £350,000,000 excluding VAT
- £420,000,000 including VAT

Framework lot values may be shared with other lots

Above the relevant threshold

Award decision date

13 October 2025

Date assessment summaries were sent to tenderers

13 October 2025

Standstill period

- End: 22 October 2025
- 8 working days

Earliest date the contract will be signed

23 October 2025

Contract dates (estimated)

- 23 October 2025 to 22 October 2027
- Possible extension to 22 October 2028
- 3 years

Description of possible extension:

This competition is for the award of framework one in the scheme of frameworks.

Framework one (1) is for a term of 24 months with an option to extend for 12 months.

Framework two (2) will be for a term of 24 months with an option to extend up to a maximum of 12 months.

Framework three (3) which is the final framework will last 24 months, depending on whether we exercised the option to extend framework two (2).

The open framework will last 8 years in total.

CCS reserves the right to extend lots by varying durations.

Contract 9. Lot 7c. Transport Network Management

Lots

Lot 7c. Transport Network Management

Supplier

- Withheld Section94 supplier

Contract value

- £200,000,000 excluding VAT
- £240,000,000 including VAT

Framework lot values may be shared with other lots

Above the relevant threshold

Award decision date

13 October 2025

Date assessment summaries were sent to tenderers

13 October 2025

Standstill period

- End: 22 October 2025
- 8 working days

Earliest date the contract will be signed

23 October 2025

Contract dates (estimated)

- 23 October 2025 to 22 October 2027
- Possible extension to 22 October 2028
- 3 years

Description of possible extension:

This competition is for the award of framework one in the scheme of frameworks.

Framework one (1) is for a term of 24 months with an option to extend for 12 months.

Framework two (2) will be for a term of 24 months with an option to extend up to a maximum of 12 months.

Framework three (3) which is the final framework will last 24 months, depending on whether we exercised the option to extend framework two (2).

The open framework will last 8 years in total.

CCS reserves the right to extend lots by varying durations.
