# Scope

## **Description**

Northern Gas Networks (NGN) established a contract for the procurement of CCTV cameras c/w monitoring of this equipment.

NGN will be extending this contract to enable the monitoring of the cameras to continue until 30th June 2027.

The purchase of these CCTV cameras was a bespoke build for NGN's requirements, these camaras are monitored by the supplier's Alarm Receiving Centre (ARC).

NGN will also be varying the contract to repeat purchase 5 further CCTV cameras, along with 3 solar camera trailers and monitoring of this equipment.

Varying and extending the contract aligns with NGN's strategy to align all NGN's security timeline wise, enabling NGN to streamline processes and procedures with regards to security by June 2027. Moving away from the current situation.

Changing supplier at this stage would bring about: incompatibility of equipment and an additional ARC to be managed by NGN, along with delays to the process possibly

bringing about additional costs to current site security requirements.

## **Contract 1**

# **Supplier**

• ASEL TEMPORARY SECURITY SOLUTIONS LTD

## **Contract value**

• £459,535 including VAT

Above the relevant threshold

# Earliest date the contract will be signed
