### **Scope**

### **Description**

The Authority requires a new Public Contract (stand-alone public contract with Ordering Schedule) for the supply of multi-parameter instruments to equip the Environment Agency with the best evidence gathering instruments available.

Future equipment should require minimal maintenance, have a long working life and help create cost savings in future years.

With this in mind, we require a Public Contract for the supply of hand-deployable multi-parameter instruments for marine and estuarine water quality monitoring.

The instruments will be used for statutory monitoring, (including spot sampling), European Union Directive and Environment Management investigations. Equipment will be deployed from coastal survey vessels and rigid hulled inflated boats.

This specification provides full detail of what is expected in terms of the goods / services supplied under this Public Contract.

## **Total value (estimated)**

- £500,000 excluding VAT
- £600,000 including VAT

Above the relevant threshold

## **Contract dates (estimated)**

- 1 January 2026 to 1 January 2029
- Possible extension to 1 January 2031
- 5 years, 1 day

Description of possible extension:

Each Lot will be awarded for 3 years with the option to extend for 2 additional 12-month periods.

## **Options**

The right to additional purchases while the contract is valid.

The Public Contract for Lot 1 is to be awarded for 3 years with the option to extend for 2 additional 12-month periods.

The Public Contract for Lot 2 is to be awarded for 3 years with the option to extend for 2 additional 12-month periods.
