The final list of schools to be included within the scope of the tender will be confirmed within the tender specification when issued to bidders.

The contract being tendered is for three years in duration from 1st August 2026 until 31 July 2029, with the option to extend for a further three years on the same terms and conditions excluding the right to further extend. The contract will be a fixed price in nature, with the Contractor invoicing the Client for one-twelfth of the annual cost monthly.

Whilst the monthly charge will represent one-twelfth of the contract cost, a reconciliation will take place monthly to reconcile the actual hours worked within the contract. If the hours worked are less than those budgeted a credit will be required by the schools. This credit will be calculated by dividing the annual contract cost (fixed cost) by the number of annual input hours to arrive at a contractual cost per hour, this will then be multiplied by the number of hours due to arrive at the fiscal credit.

The Trust requires that the tendered number of hours are always worked, and the successful contractor is expected to have a system in place to cover for both planned and unplanned leave.

The basis and rationale that the Client requires is for the successful contractor to operate to always being able to provide clean schools that are fit for purpose and that the Contractor is proactive in the management of the contract, thus ensuring that all output specifications are achieved and that the required frequency of cleans is delivered.

The tender project is seeking to appoint a Contractor whose initiative and innovation will be welcomed for the provision of the services. The high-quality service levels proposed, should maintain excellent standards throughout, resulting in a clean and pleasant environment for students, staff and visitors within all the schools consistently.
