Contract

## ALM Platform- Gitlab SaaS Migration

HM Revenue & Customs

UK7: Contract details notice - Procurement Act 2023 - [view information about notice types](#)

Notice identifier: 2025/S 000-065300

Procurement identifier (OCID): ocds-h6vhtk-05835a ([view related notices](#))

Published 14 October 2025, 3:59pm

## Scope

## Reference

SR2497129644

## Description

HMRC require a solution which can develop, share and version control rigorously assured code to produce robust, reproducible analysis which can also allow for Collaboration, internal transparency coupled with security. HMRC are planning to consolidate multiple siloed software instances across CDIO, ECS, DPS, EIS and B&T/CDS into SaaS based platforms. It is key that all groups in HMRC are on the same platform as other analysts, data scientists and coders in HMRC, to ensure integration and compatibility and therefore efficient use and reuse of analytical components across the department. This includes Gitlab Dedicated SaaS for 4000 users, large Infrastructure and Management

## **Contract 1. ALM Platform- Gitlab SaaS Migration**

### **Supplier**

- GITLAB UK LIMITED

### **Contract value**

- £11,826,872.40 excluding VAT
- £14,192,246.88 including VAT

Above the relevant threshold

### **Date signed**

26 September 2025

## Signed contract documents

[REDACTED\\_Gitlab\\_HMRC\\_Contract.pdf](#)

Redacted version of the signed Gitlab-HMRC contract

---

## Other information

## **Conflicts assessment prepared/revised**

Yes

---

## **Procedure**

### **Procedure type**

Direct award

### **Direct award justification**

- Single supplier - intellectual property or exclusive rights
- Single supplier - technical reasons

Gitlab is a key piece of software for the organisation as it is used for software development, allowing teams to plan, build, test, and deploy code collaboratively in a single application. Moving to an alternative solution would cause significant disruption and risk to the authority. This would create disproportionate technical and resource challenges that would impact business operations and not demonstrate commercial value or provide the most economically advantageous outcome.
