Contract

## **TMAR3148 - MAIB-Post Scan Stability Assessment**

Department for Transport

UK7: Contract details notice - Procurement Act 2023 - [view information about notice types](#)

Notice identifier: 2025/S 000-065506

Procurement identifier (OCID): ocds-h6vhtk-05cd19

Published 15 October 2025, 11:00am

### **Scope**

### **Reference**

TMAR3148

### **Description**

Initial stability and windage assessment work was completed by the Wolfson Unit. This work was based on the documentation available at that time and served to support the initial hypothesis that the vessel was subject to an extreme weather event that exploited an unknown vulnerability in its design. The original contract work foresaw the need to refine the bespoke model generated by the Wolfson Unit, so included a package of training for one member of MAIB staff to allow the manipulation of the model following a 3D laser scan of the yacht, downflooding survey and deadweight. Bayesian has now been recovered successfully from the seabed and has presented opportunities to make a more exact assessment of its inherent stability and aerodynamic performance. A 3D laser scan of Bayesian has been completed and there is a critical need to validate and improve the initial stability model developed by the Wolfson Unit.

## **Contract 1. TMAR3148 - MAIB-Post Scan Stability Assessment**

### **Supplier**

- Wolfson Unit Univeristy of Southampton

### **Contract value**

- £29,910 excluding VAT
- £35,892 including VAT

Below the relevant threshold

### **Date signed**

9 October 2025

### **Contract dates**

- 15 October 2025 to 31 January 2026
- 3 months, 17 days

### **Main procurement category**

Services

## **CPV classifications**

- 73110000 - Research services

## **Contract locations**

- UK - United Kingdom

---

## **Procedure**

### **Procedure type**

Below threshold - without competition
