Scope

Description

The London Borough of Hounslow is in the process of re-designing its specialist, person-centred psychologically informed support services for children and young people with learning disabilities and/or autism.

We envisage that the new service will follow the principles of positive behaviour support with new arrangements anticipated to commence in April 2026. The successful provider will operate alongside the Dynamic Support Register, which serves as the central coordination point for identifying and receiving referrals.

This survey is being distributed to a range of providers delivering similar services and who may be interested in tendering for the opportunity once the procurement is published.

This survey is short and should not take longer than 10/15 minutes to complete. We would be very grateful for survey responses before 12pm on Monday 27th October 2025.

Full details on service delivery requirements, performance indicators, length of contract and budget availability will be detailed in the Invitation to Tender documents.
