Utilities

#### **Direct award justification**

Single supplier - technical reasons

The chosen supplier is uniquely qualified to deliver the required scope of work due to their extensive knowledge and demonstrated experience with the Superplastic Forming (SPF) process, as well as their proven capability in producing Body End Panels and managing associated supply chain requirements. Market testing has confirmed that no other supplier can meet the project's complex manufacturing tolerances or manage delivery risks to the required standards. Engaging this supplier ensures continuity of delivery, adherence to technical and quality specifications, and effective mitigation of commercial and technical risks, thereby avoiding potential delays or unsuitable substitutions
