Description

Cwm Taf Morgannwg University Health Board intends to direct award a contract to FP Hurley & Sons Ltd for the replacement of the existing Carrier 30HS 161 air-cooled chiller at Princess of Wales Hospital.

The works include the supply, installation, testing, and commissioning of a new air-cooled chiller using a low-GWP refrigerant, together with associated mechanical, electrical and craneage activities.

This replacement is required due to the age and condition of the existing chiller, which poses increasing reliability, environmental, and operational risks. The new system will improve energy efficiency, ensure continuity of cooling to critical clinical areas and support NHS sustainability objectives.

Contract 1. Replacement of Existing Chiller at Princess of Wales

Supplier

- FP Hurley & Son Ltd

Contract value

- £220,000 excluding VAT
- £264,000 including VAT

Above the relevant threshold

- 3 November 2025 to 28 February 2026
- 3 months, 28 days

Main procurement category

Works

CPV classifications

- 45331200 - Ventilation and air-conditioning installation work
- 42510000 - Heat-exchange units, air-conditioning and refrigerating equipment, and filtering machinery

Contract locations

- UKL - Wales

Other information

Conflicts assessment prepared/revised

Yes

Procedure

Procedure type

Direct award

Direct award justification

Extreme and unavoidable urgency

The existing chiller is aging and increasingly prone to failure, which could compromise critical cooling for patient areas, medical equipment and medicines. Immediate replacement is required to maintain safe operational conditions, improve energy efficiency, ensure compliance with environmental regulations, and reduce the risk of visible infrastructure failures that could damage public trust.
