Scope

Reference

DP0990

Description

Derbyshire Constabulary are looking into the options for our back-office solution within CREST (Casualty Reduction Enforcement Safety Team). This system allows the force to download speeding offences for review, management and action. The force also requires integration with other force applications to ensure a speeding offence is managed effectively and follows a national approved procedure. The Force is assessing the available options so that a business case can be created to move the procurement forwards. To inform the business case, we are reaching out with this Request for Information [RFI] to the market to carry out a full review of the market. If the business case is approved, a compliant procurement route will be taken at the point of purchase.

Total value (estimated)

- £0 excluding VAT
- £0 including VAT

Above the relevant threshold
