PIMS

Description

The current version of the Portfolio Information Management System (PIMS) was implemented by the West Yorkshire Combined Authority in 2018. The system was developed to improve the transparency and consistency of information for projects that were being delivered by the Combined Authority and its delivery partners, and because of that, improve the efficiency of monitoring and reporting information. Since then, WYCA has expanded its portfolio significantly - from 200 to over 800 project sites - and the existing system has struggled to keep pace. Key challenges include: • Outdated technology architecture. • Manual, resource-intensive updates. • Limited reporting and dashboarding capabilities. • A lack of scalability for growing governance and assurance needs. In response, WYCA's Strategic Portfolio Office (SPO) has engaged internal stakeholders throughout WYCA and reviewed lessons learned to define the vision for a future-ready system. We are now seeking a development partner to provide a new system that delivers improved functionality, efficiency, and user experience. Project Objectives The new PIMS should enable the following key outcomes: 1. Up-to-Date Project Visibility

Provide reliable, real-time access to performance, financials, and status across all live and completed projects. 2. Streamlined Reporting Offer configurable dashboards and automated reporting (including Power BI integration) for users at all levels - from project teams to senior leaders. 3. Data-Driven Decision Making Support robust evaluation and assurance through consistent data capture aligned with WYCA's Evaluation Strategy. 4. System Integration Seamlessly integrate with WYCA's existing tools and infrastructure, including Microsoft Office 365, CI Anywhere, and CRM platforms. 5. Operational Efficiency Reduce administrative burden through bulk updates, workflow automation, and smart form validation. 6. User Adoption & Confidence Be intuitive and trusted - so much so that it could be confidentl

Contract 1. Portfolio Information Management System

Supplier

- Ninth Wave Ltd.

Contract value

- £550,000 excluding VAT
- £660,000 including VAT

Above the relevant threshold

Award decision date

10 October 2025

Date assessment summaries were sent to tenderers

17 October 2025

Standstill period

- End: 28 October 2025
- 8 working days

Earliest date the contract will be signed

7 November 2025

Contract dates (estimated)

- 7 November 2025 to 6 November 2029
- Possible extension to 4 November 2033
- 7 years, 11 months, 28 days

Description of possible extension:

Contract structure: Implementation time up to 12 Months Initial term 36 Months 2 x 24 Months optional extensions

Main procurement category

Services

CPV classifications

- 72000000 - IT services: consulting, software development, Internet and support

Contract locations
